Some of Our Clients Include:

Newpath WEB - Out of the box Intranet Solution Feature List

Design

- Bespoke design unique to your organisation

Users

- Super Administrator
 - This user will be able to manage all content and files within all sections and departments of the Intranet.
 - This will be a single user.
- Standard Users
 - These users exist within business departments. They have view permissions to the Intranet. They cannot upload, publish or edit content.

Multiple Departments

- The Intranet will contain multiple departments for different parts of your business such as sales, marketing, HR etc.
- All users will be able to view content across all departments as standard practice. Additional permissions can be applied if required/requested.

Integration with Active Directory

- The Newpath WEB Intranet solution is integrated the active directory database of each client that purchases the solution.

Policies/Procedures and useful documents

- The Out of the box Intranet solution includes a module for policies, procedures and HR forms along with the ability to create modules for other useful documents.
- This section is displayed as folders and files within folders.
- Users are able to view and download these files.
- The Intranet Administrator is able to manage (add/edit/delete) folders and files within this section of the Intranet.
- File formats such as MS word, excel, PowerPoint, PDF, and video files are supported.

HR forms

- A module for forms such as leave request, timesheets etc.
- The ability to upload these forms as MS Word/Excel or have the forms in HTML as part of the Intranet, with a submit feature.

Meeting/Event Calendar

- Our Out of the box Intranet Solution includes a meeting and event calendar.

-
- Users can view entries for meetings and events, along with being able to set reminders associated with a particular event, within their own calendar.

Social Club information

- Images, photo galleries, text and other related information relevant to the social club of your organization.

Announcements

- This feature allows the Intranet administrator to post important announcements to all the users of the organization, or to a single department.

Newsletter

- Newsletter creation and management, that can be distributed to all or a select set of staff.

Photo gallery

- The Intranet Administrator can manage (add/edit/view/delete) albums and photos.
- Users will be able to view albums and photos within albums.

Advanced Search

- This feature will allow users to search documents and key information on the Intranet.

Contact List

- This feature will allow the Intranet Administrator to manage a business/staff contact list with the following information:
 - First name
 - Last name
 - Department
 - Email Address
 - Phone number

Training

- Each department will have a section where training related material can be uploaded.
- The Intranet Administrator can manage (add/edit/delete) files within this section.
